## WMMC - Member Highlight – Janie Keys

I started taking piano lessons at the age of 6. My parents made it clear that upon starting first grade in San Angelo, Texas, that I would also start piano lessons. Many decades later, I am still taking lessons. There were times, though, in elementary school when my friends who took dance lessons got to dance in the talent show wearing pretty frilly tutus, and I had to sit still on a piano bench playing a sonatina, that I would gladly have given up piano lessons to be able to wear those tutus. I can say now that I am glad my parents persevered despite my fervent pleas.

After we moved to San Antonio and my father found a wonderful piano teacher, I began to value playing and practicing. After surprising my piano teacher by placing second in a piano concerto competition as a senior, I surprised her yet again by deciding not to major in music in college. After taking 3 years of French in High school, I was in love with the language and the idea of moving to France one day, and marrying a French prince.(!) My daydreams were definitely stuck in the 18<sup>th</sup> century. Going to the University of Texas, I majored in French and took advantage of a new degree plan offered by UT of having a minor in Fine Arts. As a piano minor I started taking lessons with Nancy Garrett and enjoyed 4 wonderful years as an undergraduate under her guidance.

After graduating from UT and earning Phi Beta Kappa, reality loomed and so did my parents as they insisted that in graduate school I earn a practical degree so I could support myself. I entered graduate school at UT as a piano pedagogy major, and as a teaching assistant gained considerable experience in teaching class piano. After graduating, I was offered a job at Baylor University teaching class piano and piano pedagogy, and a year later, after marrying, I also taught class piano and freshman theory at the University of Houston.

I moved to Austin in 1976 and have been teaching privately here ever since. Over the years I have studied with David Renner, Tim Woolsey, Jane Abbott-Kirk and most recently, Sheila Paige. In 1991 and for some years after that, I received Suzuki teacher training from Doris Harrel, and am deeply grateful for her inspiration and insights.

Lastly, I would like to say that my childhood dream of dancing on stage, under the lights, in a beautiful costume has been satisfied. My husband and I are taking ballroom dance lessons. The headshot above was taken at a dance showcase as we danced waltz, tango, and foxtrot. Not exactly a real life picture, but one I enjoy looking at.

## Thought for the Day

"The best thing for being sad," replied Merlin, . . . "is to learn something. That's the only thing that never fails. You may grow old and trembling in your anatomies, you may lie awake at night listening to the disorder of your veins, you may miss your only love, you may see the world about you devastated by evil lunatics, or know your honour trampled in the sewers of baser minds. There is only one thing for it then — to learn. Learn why the world wags and what wags it. That is the only thing which the mind can never exhaust, never alienate, never be tortured by, never fear or distrust, and never dream of regretting. Learning is the only thing for you. Look what a lot of things there are to learn." T. H. White, The Once and Future King (Thanks to Beth Moreno for bringing this timely quote to my attention.)
